

## **ENERGY STAR Qualified Appliance Product List Updates – December 2003**

This document provides a list of appliances that were either added to the qualifying product list in the previous month, deactivated from the qualifying product list in the last month, or had their product specifications changed. Due to preparations for the January 1, 2004 criteria changes, many models were edited. Several manufacturers submitted updated test results for clothes washers and refrigerators so that the products would continue to be ENERGY STAR qualified. Many older room air conditioner models were also deactivated in the month of December.

Deactivated products will remain on the qualifying list in red for the next year. For any questions about this list, please contact Bill McNary ([bmcnary@drintl.com](mailto:bmcnary@drintl.com)) or James Siegel ([jsiegel@drintl.com](mailto:jsiegel@drintl.com)) at 301-588-9387.
